Pred. No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     RESULT 7
A57126
dual specificity phosphoprotein phosphatase (EC 3.1.3.-) 2 - human
N.Alternate names: mitogen-induced nuclear tyrosine phosphatase; phosphatase of activate
A;Map position: 8p21-8p11.2
(Superfamily: dual specificity phosphoprotein phosphatase 1; VH1-type dual specificity
C;Keywords: phosphoprotein; phosphoric monoester hydrolase
F;203-334/Domain: VH1-type dual specificity phosphorotein phosphatase homology <VH1>
F;280/Active site: Cys (phosphocysteine intermediate) #status predicted
F;286/Binding site: substrate phosphate (Arg) #status predicted
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 Kel
